

Pre-K School Programs

School to Sea

Can't get outside? We bring the coast to you through sensory science activities for ages 3-5. Our programs focus on marine science and are led by Salem Sound Coastwatch educators

Marine Science Lesson

\$225 per a Session

Time: 1 hour

Led: 1 SSCW staff

Student #: 25

Great for: In school programs & afterschool

Included: Story time & 4-5 themed sensory stations.

Marine Science Story Series

\$750 for 5 sessions

Time: 5 sessions for 30 minutes each

Led: 1 SSCW staff

Student #: 25

Great for: In school programs & afterschool

Included: Story time & 1-2 themed sensory stations for each program.

Touch Tank Add On \$100

Add live touch tank animals to Lab sessions for an extra hands-on station.

Marine Science Themes

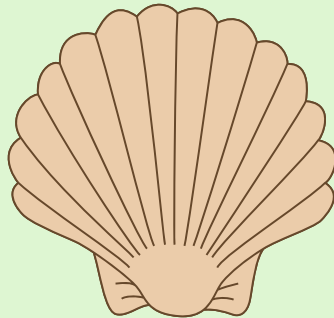

Story & Activities

Crabs & Critters

Scuttle like a crab and explore the shoreline! Students discover how tides shape the coast and how crabs adapt to life on the move.

Marvelous Mollusks

Slither, slide, and swirl like a snail! Kids discover how mollusks use their bodies and behaviors to live and thrive in watery habitats.

Watershed Explorers

Splash into the journey of water as it travels from forest to ocean! Students explore how water connects our community to the sea.
